# DOES YOUR COMMUNITY HAVE AN ENVIRONMENTAL CONCERN?

Blueprint Kentucky offers free technical assistance to communities seeking support for environmental issues. We serve as the Kentucky technical assistance providers for the REACT4 effort.

WHAT ENVIRONMENTAL ISSUES ARE ADDRESSED?

- poor air, water, and soil quality
- exposure to environmental hazards
- climate change resilience (preparation and response)
- clean energy transitions
- transforming former mine land

WHAT TECHNICAL ASSISTANCE IS OFFERED?

- identifying and applying for funding
- navigating grant applications and systems
- developing strong grant proposals
- facilitating community input sessions
- strategies for community engagement
- connecting people with resources, new partnerships, or subject matter experts

To request technical assistance, scan the QR code with your phone camera, or email tyler.mcdaniel@uky.edu
