

Who should you be working with in your community?

There are often many organizations working towards growth in a community.
To be the most effective and efficient, collaboration is KEY!

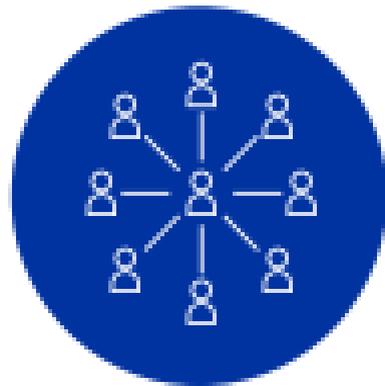

START HERE!

Every community needs to have a lead contact for development and growth. When a local economic developer or chamber is not present, this often falls to elected officials or extension agents.

BUILD YOUR TEAM

Growth and effectiveness come from a cohesive team of community partners.

BLUDOT CAN HELP!
